Photographer Resume

Samantha Fels

Qualifications

I have been a dancer for over 15 years which included being apart of musical productions and dance showcases. The purpose of dancing is to express emotion beyond what words can describe. We have a story to tell and we can only show it the best way that we know how, by dancing. Being a choreographer I have come to realize that capturing the moment of any beautiful piece brings the thoughts to life. The art of photography brings that moment in time to reality. Having done photography for over 5 years now, I have shown an individual's thoughts, experiences, and emotions through a simple photograph.
